M. Imparato, E. Carbone **Centrino Tables**

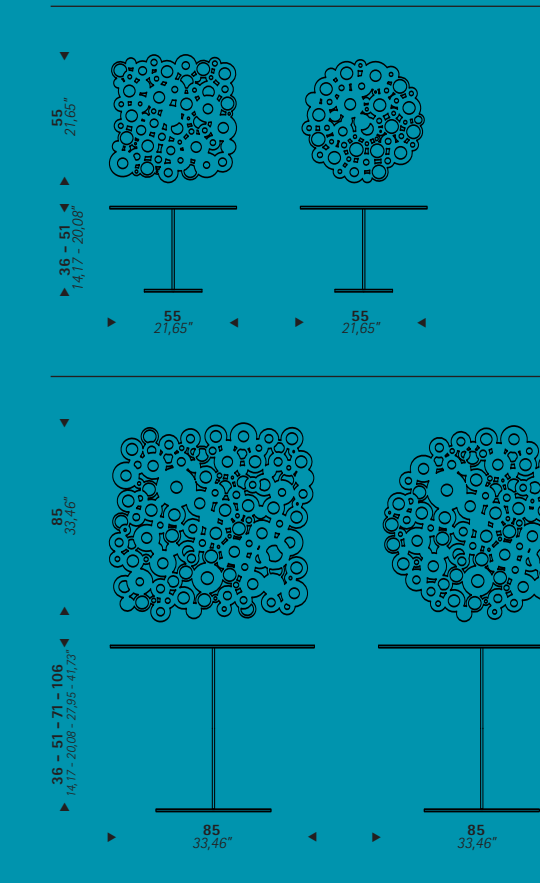

Steel tables, with top assembled by electro-galvanized welding rings and steel base. Tables available in several heights, shapes and dimensions, lacquered in a wide range of colours.

Tavoli con piano formato da anelli di lamiera elettro-zincata e base in acciaio. Disponibili in diverse altezze, forme e dimensioni, laccati in un'ampia gamma di colori

These tables, shown in preview at the Milan Furniture Fair 2009, match up imagination, elegance and style. The project reminds us of the typical domestic décor of Italian tradition, in particular the embroidered centrepiece, through the simple assembling of basic mechanical parts. The transparency and the chiaroscuro of the table tops emphasize the deep and the nature of the interiors where they are employed.

Questi tavoli, presentati in anteprima al Salone Internazionale del Mobile di Milano 2009, coniugano fantasia, eleganza e stile. Il progetto richiama il decoro domestico della tradizione italiana, tipico del centro-tavola in tessuto ricamato, attraverso il semplice assemblaggio di parti meccaniche elementari. Le trasparenze ed i chiaroscuri dei piani valorizzano la profondità ed il carattere degli interni nei quali vengono utilizzati.

CENTRINO TABLES
