STANDING OVATION 2012

Standing Ovation is a smart solution for the living room, providing shelving for books, objects, tv set or home theatre.

Standing Ovation has been designed for being placed either to the wall or as a free standing divider. The thick tops and bases, connected by thin steel rods and *solid surface* shelves, create a strong architectural effect. Standing Ovation is made of sectional elements which can be assembled in different ways. The base can accommodate a bio-ethanol fireplace, or a chest of drawers.

Standing Ovation è una soluzione smart per creare ripiani per libri, oggetti, tv ed home theater.

Standing Ovation è stata progettata per essere collocata sia a parete che come divisorio free standing. I top e le basi, collegati da sottili aste in acciaio e ripiani in *solid surface*, creano un forte effetto architettonico.

Standing Ovation è formata da elementi componibili che possono essere assemblati in vari modi. La base può ospitare un caminetto a bioetanolo, o una cassettera contenitore
